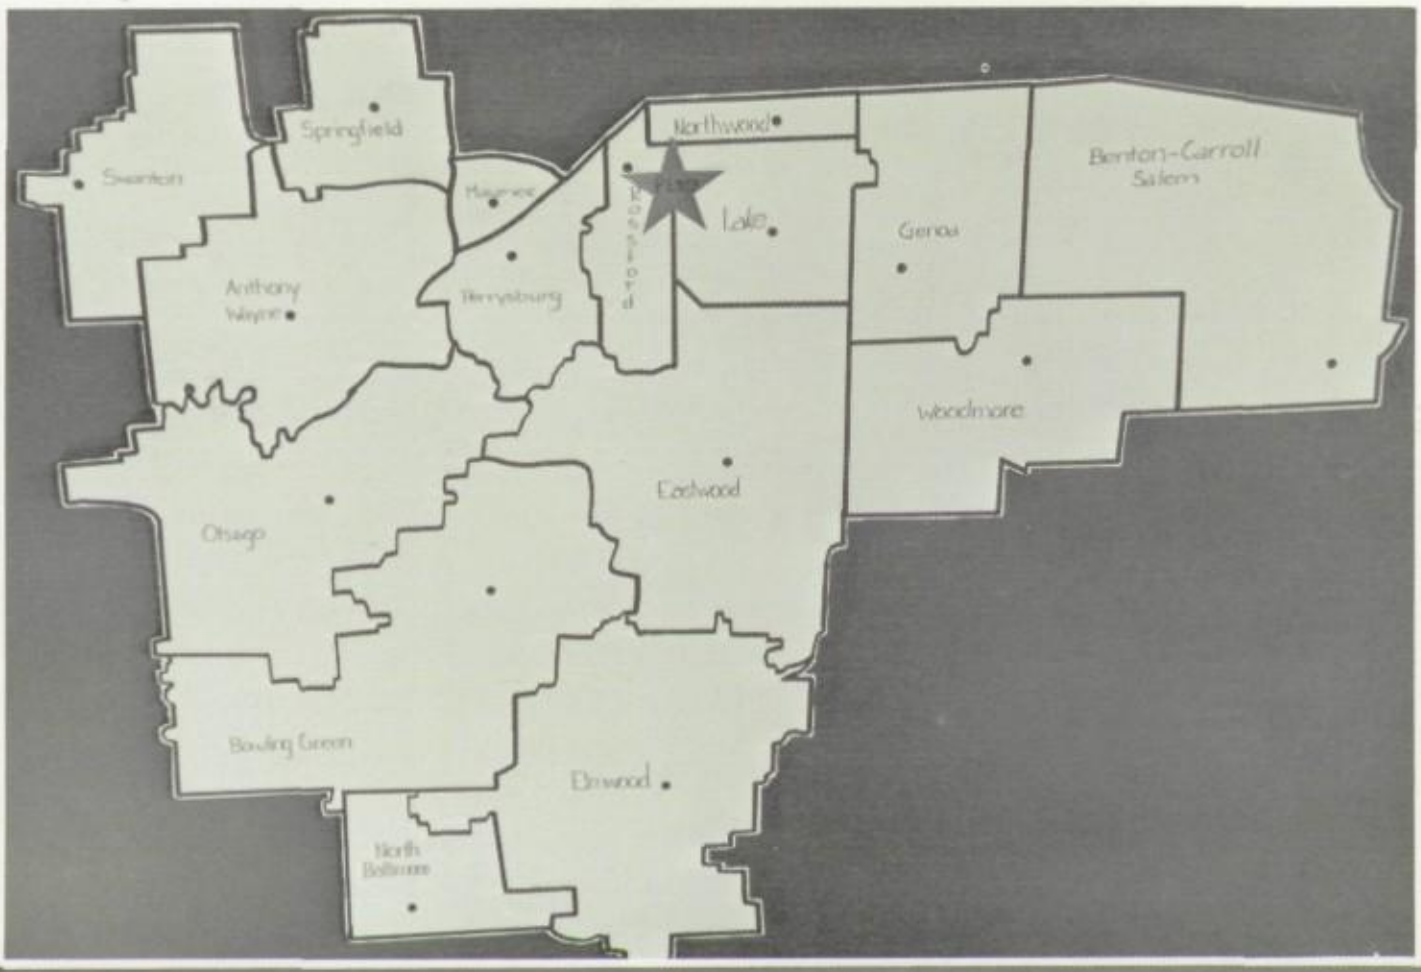
PARTICIPATING SCHOOLS:



The New Penta Rehabilitation Facility

Dr. See
Superintendent

We are now nearly through the second phase of facility construction at Penta. Students of our Vocational High School will have 250,000 square feet of well-equipped buildings in which to learn when the Fall term opens in September of 1972. The total space available for much-needed modern vocational pursuits has doubled since the second phase began in 1969. All new construction and renovations completed since 1969 and all of the various equipment in the added areas have been paid for. Total funds for capital improvement completed since 1969 at the high school exceeds $4,500,000.

As Superintendent of the 2,000 square mile Penta County Vocational Education Planning District, I respectfully acknowledge the financial assistance from the State Legislature, the State Administration, the State Department of Education, the Rehabilitation Service Commission, and the Federal Government which made the expansion possible. I commend the Local, Exempted Village, City, and County Superintendents and the member-school Boards of Education of this district for their excellent cooperation in planning for our successful expansion.

It is my sincere hope that we can continue to merit the confidence of professional educators, parents, and other citizens as we try to meet the educational requirements of the students who elect to attend high school at Penta. The Penta County Vocational Board of Education joins me in that hope.

Jacob H. See
Superintendent

Schools, like families and individuals, have their times of joy and their times of sorrow. Schools experience joy and satisfaction through the performance and achievement of their students. We have been particularly fortunate at Penta in being able to continue to provide additional facilities and equipment so that students have the opportunity to acquire knowledge and skills. We have observed with satisfaction the diligence of many dedicated staff members as they work with young people in their development.

Penta has not been without sorrows. Our hearts have been saddened by the loss of six of our young peoples' lives. The untimely deaths of these students remind us once more of the need which we have for one another and the responsibility that we bear to each other.

We are proud of the record of students and their activities which this issue of the Artisan provides. It will be an important link to the past.

THE WHITE HOUSE

WASHINGTON

January 10, 1972

Dear Mr. Bryant:

The outstanding work of the members of the Vocational Industrial Clubs of America in Perrysburg has recently come to my attention. I understand that your students have made a splendid and successful effort to meet a particularly important need in your community through the assistance they have been able to give retarded children. I have further noted the memorial plaque they established in honor of those who have given the ultimate sacrifice on behalf of our country. The deep humanitarian concern expressed by these young people does indeed deserve the appreciation of all our fellow Americans and I welcome this opportunity to commend each member of your group for his effective achievements.

With my best wishes for the New Year,

Sincerely,

Richard Nixon

Dear Schnapp,

How do I begin? You've been such a great teacher; one of the best I've ever had. I have truly learned a lot this year. Besides being a good teacher, you're really a nice guy. Hope I see you sometime after May 28th. (Maybe I could be your caddy at Tanglewood!)

One-time student and
long-time friend,
Lynn M. Speck

Mr. Schnapp,

It has been my priveledge being your student this past year. We sure gave you a hard time, but you put up with us. Thanks for everything. See you sometime next year.

Your friend,
"72" (Fuzzy Wuzzy) John Lassiter
(Genoa)

Mr Schnapp;

to a good teacher who
tries hard to get all of us
a job. Thanks for the one you gave
who started me in a job. I will always remember
in next year to see how school changed
& to see my teachers I had here. Good Luck
in the rest of your teaching career.

Nora Vengke
(Xenos
'72)

Mr. Schnapp, in no space could I ever put in words how much you've meant to me throughout these past few years. Your advice, perseverance & understanding have helped me through my lesson with the disaster area — I'll have especially the rest of my life!! You gave me the experience of my life with the group of the year!! All I can say is a lot — and keep in touch — I'll stop in when I'm in the neighborhood — you do the same!

Eileen
